### "Doctor"

Visit "[Doctor](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I, just want to sleep  
Sleep with you  
In my bed  
Where are you?  
Come to me  
Where are you please?  
Can you help, Doctor please  
Can you help me?  
Doctor, can you help me?  
I got a broken heart  
Gonna help me fix it  
I'm only seeing dark  
I got some fibrillation  
Is this your occupation?  
Can you help me, I'm only seeing dark  
I'm only seeing dark, Help me

I, thought it a change  
Change for good  
Good or bad  
I was right  
Held captive, where I am  
Can you help me?  
Doctor, will you tell me  
How to treat my heart  
I think I was mistaken  
I'm only seeing dark  
Because of palpitations  
Is this a simulation  
Can you help me, I'm only seeing dark  
I'm only seeing dark

One light, in a medical night  
Dark outside, but it burns so bright,  
I'm blind, I'm fine, I can step in time  
Press for pause, but I just rewind  
(Repeat x 9)
