You best not show your face down at Crevice Canyon  
Unless you know the right direction all the way down  
there  
'Cause if you get caught in the bushes down in Crevice  
Canyon  
Well they'll haul you off to jail, and make you cut your  
hair

Woo Woo Woo what a premonition  
If you know what it takes to make love like you should  
Woo Woo Woo well at Crevice Canyon  
A sunset ain't worth a shit if the going ain't good.

Oh you rock my spot  
Baste on your lovin', like a chicken in the oven  
When you knowing that I love it alot  
Oh you rock my spot  
Taste sweet lovin' that you gonna be in trouble  
Cause I know your goin' love what I got

Ladies around here can tell, they smell a difference  
In the men-folk coming round from out of town  
She knows right now exactly where she needs it  
It ain't coming from you 'less you're upside down

Woo Woo Woo get all the action  
Take me to the party, 'cause the rhythm's gonna last all  
day  
Woo Woo Woo give me satisfaction  
Sock it to me on the spot, then I'm comin' your way

Oh you rock my spot  
Baste on your lovin', like a chicken in the oven  
When you knowing that I love it alot  
Oh you rock my spot  
Taste sweet lovin' that you gonna be in trouble  
Cause I know your goin' love what I got  
(Repeat x 2)
