There's a monster scaring everybody
Spooky footprints kinda strange and muddy
And a terrified town that doesn't know what to do
When it seems there's no-one left to call now
When it seems there's no hope left at all now
That's when the mystery machine comes creaching into
veiw

Here come those Meddlin' kids to join the chase
No creep can keep them away (Don't try to stop them)
When mosters all disappear without a trace,
the kids find the clues right away
Looks like they learned that crime doesn't pay
And now they regret what they did (And now there
sorry)
If they were lucky they'd have gotten away
If it wasn't for those Meddlin' kids

Catchin' monsters can be pretty heavy
Glowin' eyes and fangs are pretty scary
Every one in town is trying to find a hideaway
But there's no place left for them to hide now
And there's nothing that they haven't tried now
But just in time our gang shows up to save the day

Here come those Meddlin' kids to join the chase
No creep can keep them away (Don't try to stop them)
When mosters all disappear without a trace,
the kids find the clues right away
Looks like they learned that crime doesn't pay
And now they regret what they did (And now there
sorry)
If they were lucky they'd have gotten away
If it wasn't for those Meddlin' kids

Here come those Meddlin' kids to join the chase
No creep can keep them away
When mosters all disappear without a trace,
the kids find the clues right away

Here come those meddlin' kids (x8)
