When you go to any place, no matter how you feel, you
gotta try
To look your best
'cause people stare, and people care. Your first
impression on them
Depends on how you dress
So take this hint of common decency.
Baby, you just gotta listen to me.
Now, I would never lie to you so
You gotta hear me through, oh,
Baby, you know you gotta dress right.
Dress right if you wanna go out tonight.
Tonight, don't try to put up a fight.
Don't fight, 'cause you know that you gotta dress right.
I see you walkin' all over town, and people give you
funny looks as you
Walk on by.
Now, if I didn't know your name, I'd take one look at
you, and I'd think
That you were a guy.
So take off those ugly clothes
'cause you look so bad in those.
Get something that looks good on you, yeah.
You gotta hear me through, yeah...
Baby... (chorus)
