Hello yes I'm calling to arrange a little trip
Somewhere far away from here by train or plane or
ship
I'd like to leave today it don't have to be first class
No it's not for pleasure but I'll tell you since you asked
I'm going someplace to forget someplace her memory
won't show up
So far everywhere I've been hasn't been quite far
enough
Is there a rocket to the moon I haven't been there yet
I just need to leave real soon I'm going someplace to
forget
[guitar]
No there's not much luggage just this old suitcase of
mine
Things that make me think of her I've got to leave
behind
Yes I'll be returning when I don't know
It all depends on how long it takes my heart to let her
go
I'm going someplace to forget...
I just need to leave real soon I'm going someplace to
forget
