Well I guess I've been traveling light my whole life  
through  
Thought if you never own nothing much, nothing ever  
owns you  
Until I looked at you I swear I never gave one thought to  
forever  
Girl, I never wanted to

Find a little spread with a creek running through  
Build a little dream and make it come true  
But now I want to with you  
Girl, I want to with you

Put a little ring, third finger, left hand  
Stay with somebody  
Who will love and understand  
Girl, I want to with you

When a man ain't looking no telling what he may find  
Until I saw the light of your love I was walking round  
blind  
I kept running with my restless heart  
Thinking that's just the way things are

Girl it never crossed my mind  
I think it's time

Just find a little spread with a creek running through  
Build a little dream and make it come true  
But now I want to with you  
Girl, I want to with you

Put a little ring, third finger, left hand  
Stay with somebody  
Who will love and understand  
Girl, I want to with you

I'm gonna find a little spread with a creek running  
through  
Build a little dream and make it come true  
But now I want to with you  
Girl, I want to with you

Put a little ring, third finger, left hand  
Stay with somebody  
Who will love and understand  
Girl, I want to with you
