What'll I do if I don't have you?  
How will find my way?  
How will I know which way to go?  
Oh I'm begging you to stay.  
I'd be lost in this old town without your love when the  
sun goes down.

What'll I do if I don't have you?  
How will I find my way?

What'll I do with all this love?  
Tell me if you know.  
Whatever we had, how it went bad and it kinda lost its  
glow.  
Just hold on before you're gone and we call it a day.

What'll I do if I don't have you?  
How will I find my way?

The stars are shinin' bright in the midnight sky.  
Let's take a walk and give our hearts one more try.
