Hold on to your girl (2X)

Sky, Talay 'wooh'

Oh oh heaven that she goes , take away your
halo I should take you home

Your the cutest thing these eyes have seen all night
That's why I want to take you home with me , if you like
We can jump in the wagon anything could happen
you pluss me puts the world in a casket
tell you how my plan goes, we can go to nando's
make it extra hot i ent tryin to be your man tho

Oh oh heaven that she goes , angel wheres your halo
I should take you home take you with me
I'll give you this and that whatever you dream of
And when the mist is clear i'll be as good as gold
I'll be as good as gold
I'll be as good as gold

You say you got a man and you don't wanna' break his
heart
Well I can understand that me and your man are a
hundred miles apart
He can take you local I could make you global
I'â€Žâ€‹m gonna' gril stake
On your man like Tofo ,
Swag off the ricther
Baby get the picture,

Windows 98 ain't Sh** next to vista

Oh oh heaven that she goes , angel wheres your halo
I should take you home take you with me
I'll give you this and that whatever you dream of
And when the mist is clear i'll be as good as gold
I'll be as good as gold
I'll be as good as gold

(Rap)

I met her out in Paris by the Eiffel tower helped her
with her bag she smiled at me as she felt the power
I was there for buisness she was there for shopping
swapped eleven digits and then we got to talking
then we got to walkin' then we got to touchin'
And then we took it to that level there ain't no discussin'
You know me and women if I say she spent the night
Then that means I hit it that means I hit it proper
Gave her a heart transplant and sent her to the doctor
but
Lady here's the offer true the way your body shining
Wit' your gold skin , third finger on the left
Diamond with the gold ring
SKY

Take you with me,
I'll give you this and that whatever you dream of
And when the mist is clear i'll be as good as gold
Yeah well i'll all be as good as gold
i'll be as good as gold
