Seems to me a nightmare becomes reality  
The last days of the paradise are gone for you and me  
We're living in the crossfire  
And we'll be killed at first  
Why cannot people that we made the leaders of the  
world  
Understand that we don't want to fight  
Understand we are much too young to die  
Understand no one will survive  
Understand that we love our life

Can I trust the meaning the life line in my hand  
Which is as long as exciting hundred years  
Could be a lucky man  
But I'm living in the crossfire  
A time that starts to burn

Why cannot people that we made the leaders of the  
world  
Understand that we don't want to fight  
Understand we are much too young to die  
Understand no one will survive  
Understand that we love our life

Understand that we don't want to fight  
Understand we are much too young to die  
Understand no one will survive  
Understand that we love our life  
Understand

Understand that we don't want to fight  
Understand we are much too young to die  
Understand no one will survive  
Understand we love our life
