You're a rock-n-roll star
You are out of the charts
Your glory is gone and you're getting old
But your life is rock-n-roll

That crazy rock-n-roll band
Is spinning in your head (in your head)
Each generation makes us stars
As the first five on the charts

Ohhh...and they are top of the bill

You're a rock-n-roll star
You've been the first one on the chart
You've had glory and fame
Rock-n-roll was your game

Ohhh...and you were top of the bill
