And when we feel incredible fear
let us recall that He's always near.
Did you ever think to say a word in prayer?
You know that He will hear.

And when we feel incredible fear
let us not shed one single tear.
Even when the road is narrow and confused
you know He'll make it clear.

Now that I know it's gonna be alright
tonight, He's watching with His eyes.
I have no fear cause He's always near to me.
He's right here by my side.

I am afraid when I'm lost at sea
and I can't be brave, no, when I trust in me.
Oh, these are the times in which I call on Him the most.
I know He sets me free. Yeah

And now that I know it's gonna be alright
tonight, He's watching with His eyes.
I have no fear cause He's always near to me.
He's right here by my side.

A lonely wanderer walking on in fear
fearing fear itself.
You conquered death and rose again.
What is to fear?

Now that I know it's gonna be alright
tonight, He's watching with His eyes.
I have no fear cause He's always near to me.
He's right here by my side.

Now that I know it's gonna be alright
tonight, He's watching with His eyes.
I have no fear cause He's always near to me.
He's right here by my side.
