"Upside Down"

Visit "[Upside Down](#)" on MotoLyrics.com

I walk a tight rope
And live with the high hope
That somehow we still feel the same
Through this catastrophe
It's quietly telling me welcome
There's that word again

[Chorus:]

For I don't care if the world's upside down
If you're lost or you're found
I know my feet will stay far from the ground
If you'd just stick around

I know the shots you call gentle
'cause I could fall and break
You'll hear what they say
I read between the lines
Cuts like a hate crime
And tell me today's not the day

[Chorus]

You hit a high note
It comes like a cyclone
And tell me today's not the day

[Chorus]

With me.
