

Scotty D "Flow"

Visit "[Flow](#)" on MotoLyrics.com

Stand if you were right next to me
Wrapped around in the wind of eternity
See for yourself the history
Nature's players boasting victory
Grab, the fruit of tomorrow
From which the energy of life we follow
Taste the wait of time
The only way to supporting and crying
Notice, how we can feel we are and the graphic
Hey, we couldn't help it
We are the only way we exist

But love, your very existence, you're the source of my
subsistence
Slow down take your time and feel the flow
Only if we watch together everything there's a flow
Only with you my do heart can you find the flow

Notice, how we can feel we are in the graphic
Feeling pretty far
Hey, we can't help it

But love, your very existence, you're the source of my
subsistence
Slow down take your time and feel the flow
Only if you really want to can we keep up to the speed
of the flow
Only with you do I wanna fall into the flow

Only if we work together, there is a flow

Only with you do I wanna be part of the flow
