Hey baby don't sweat it  
Just try to forget it  
I know one day you'll come around  
My hand sweat, my teeth grind  
I right out of my mind  
And being human gets me down

Don't sweat it, things will work out for you  
Don't sweat it, I'm still hear  
Don't sweat it. I'll think good thoughts about you  
Don't sweat it, I'm still here

I'm locked in my bedroom  
I can't speck, I can't move  
And I can't give a reason why  
My heart pounds, my bones ache  
How much more can I take  
And I care less as time goes by

(Chorus)

Yea-yea-yea-yah  
I just can't find a way to get out  
There's got to be another way out  
I gotta find a way to get out  
And I got to get out of here

(Chorus 2x)
