"No One Leaves"

Visit "[No One Leaves](#)" on [MotoLyrics.com](#)

I close my eyes and disappear
Seems like the only way I'll make it out of here
Don't try to pull me under; you know it's over
There's no need for this torture; you're lost forever

Don't make a sound cuz they're everywhere
Somebody help me out hereâ€¦

Course:
If you cross my heart hope to die
Cuz no one leaves my heart behind
Cuz no one leaves

Bless me father I have sinned
I sold my soul and now he wants it back again

Don't make a sound cuz they're everywhere
Somebody help me out hereâ€¦

Course

Cuz no one leaves x2

Don't say I didn't warn you
Nothing it feels the same
I'm trying to avoid you
I'm not the one to blame

They hope to die,

Course x2
