Never learned my lesson, is it wrong way?
What you doing to yourself boy?
If you play with fire they say you gotta pay
What you doing? What you doing?
But what can I do? They're everywhere
Who you fooling but yourself, boy?
I just saw her standing there

Just show and tell me, baby
Show and tell me maybe

On your way to school do you get good grades?
What you doing for yourself, girl?
Is that where you learned to walk this way?
What you doing? What you doing?
If I don't get you I know someone will
Who ya fooling but yourself, girl?
So go ask your mother if you can come out and

Just show and tell me, baby
Show and tell me maybe
