What I say is what I say  
And what I do is what I do  
What I want I want today  
Right now I just want to get through to you

Might make you happy, might make you sad  
By telling you things that make you mad  
We may fall, but we will grab  
All the thoughts we thought we never had

Still screaming

Your eyes to the ground  
Your head's in a splay  
Once you feel the pain it won't go away  
You can't leave it - just reave it - believe

What we believe is what we believe  
And if you compromise you're still just deceived  
Your life's a life and one life can be reaved  
But what you feel, it can never be seized

And now  
I'm still screaming

Might make you happy, might make you sad  
By telling you things that make you mad  
We may fall, but we will grab  
All the thoughts, the thoughts we never had

Still screaming!
