### "Things To Do Today"

Visit "[Things To Do Today](#)" on [MotoLyrics.com](#)

Wake up in the morning  
Put on my shoes  
Wipe off that frown  
And rid these suburban blues

I make up my mind  
Define my ideas  
Tired of going backward  
These past few years

I look in the mirror  
But I can't see  
Got to figure out  
What I'm supposed to be

I've got things to do today - things to do today  
Wasted time don't pay when you got things to do today

Maybe I'll say hello  
As I'm walking by  
Try to get my goodbyes in  
Before it's time to die

Time to count my change  
What's the difference?  
Now, there ain't no hanging around  
Got to make sense

I've got things to do today - things to do today  
Wasted time don't pay when you got things to do today
