Who knows?
Who cares?
Why bother?

Break through today
Do what you say
Gotta make a way
See through me
Don't hide alone
In the unknown

Life's got to be worth the time
See through mine
Or just put me away
Just throw it away
For then it's just no use
And there's no use for you

Who knows?
Who cares?
Why bother?
We dare

Break through today
Do what you say
Gotta make a way
See through me
Don't hide alone
In the unknown

Who knows?
Who cares?
Why bother?
We dare

Facing corners of what to do
While missing the whole issue
