I'm feeling as forever
Let's go there together
It's up to you but you know it's ending
hey the space shuttle is coming
do you stay to die?
the smiling face is like a big ship in the sky
playing my guitar
coz time is running out
We have prepared everything I think so far

Tell me about your favorite day
the empty sky is coming
but you don't wanna escape anymore so i said
Hey tell me about your favorite day
the empty sky is coming
let's do not say another word
