Wipe the slate clean  
Eraser razor  
Ellipsing the space  
Between the teeth  
And the throat

Home laser removal  
Bald spots in my  
Brain and my face  
Like my shoulder horn  
It disappears with age

18 is too young to die  
30 is too old to try  
40 is too old to have fun  
41 is too young to be done

To be done with your life

The hazy environment  
I'm in it  
And I can see the trails  
Of where I've been  
My mind plays tricks  
With my dick and my eyes

18 is too young to die  
30 is too old to try  
40 is too old to have fun  
41 is too young to be done

To cut and run from the weight of the sun

Speak to me
