Feeling for a spot taking all I've got
Reach out in despair grabbing into air
You took it all too far
And all this leaving scars
Looking in my hands my piece isn't fair
Nothing ever is I no longer care
You took it all too far
And all this leaving scars

Say give it all away
The end singing to my friends

[Chorus]
Waiting for my turn it's just passed on by
Nothing here to learn birth, mid-life then die
Hold me up and say somethings in the way

Say give it all away
The end singing to my friends

[Chorus]

Nothing here to learn birth, mid-life then
Why we don't know where to go [x2]
