I am a clown, I am a clown, clown  
You'll always see me smile  
You'll never see me frown  
Sometimes my scenes are good  
Sometimes they're bad  
They're not funny ha-ha, funny sad

I am a clown, look at the clown, clown  
Always a laughing face  
Whenever you're around  
Always the same routine  
I never change  
Not funny ho-ho, funny strange

Sometimes I think the world is a circus town  
Sometimes I feel I belong in a sideshow  
The man on the flying trapeze, he ain't never coming  
down  
He knows what I know  
If you look inside, if I didn't hide  
You might decide you don't want me

I am a clown, that's why I'm a clown, clown  
Just like the fool on the hill  
Begging to come down  
I wanna live again  
Oh I wanna feel  
Tell me you love me, make me real  
Tell me you love me, make me real  
Tell me you love me, make me real

See the funny little clown  
See the puppet on a string  
Wind him up and he will sing  
Give him candy he will dance  
But be certain not to feel  
If his funny face is real
