I've been alive forever
And I wrote the very first song
I put the words and the melodies together
I am music and I write the songs

I write the songs that make the whole world sing
I write the songs of love and special things
I write the songs that make those young girls cry
I write the songs, I write the songs

My home lies deep within you
And I've got my own room in your soul
We're such good friends, when I look out through
your window
You make me young again, even though I'm very old

I write the songs that make the whole world sing
I write the songs of love and special things
I write the songs that make those young girls cry
I write the songs, I write the songs

Oh, my music makes you dance
Gives you spirit to take a chance
And I wrote some rock 'n roll so you feel so good
My music's in your heart
And it's a real fine place to start
It's from me, it's for you
It's from you, it's for me
It's a worldwide symphony

I write the songs
I write the songs that make the whole world sing
I write the songs of love and special, special things
I write the songs that make those young girls cry
I write the songs, I write the songs

I write the songs that make the whole world sing
I write the songs of love and special things
I write the songs that make those young girls cry
I write the songs, I write the songs

I write the songs that make the whole world sing

I write the songs of love and special things
I write the songs that make those young girls cry
I write the songs, I write the songs
