Swore I would find you if it takes me forever
God only knows it might take that long
Keep walkin' down these empty sidewalks
Thinkin' I see you but I'm always wrong
Since you've been gone baby nothin's gone right
When you kissed me goodbye it was the kiss of death
Ever since you left
There's no livin' without you
I've tried
But I'm not livin' without you
As long as I'm alive
I'm not livin' without you
You sent me off to this lonely prison
I serve my sentence all alone
You wanted blood - that's what you're gettin'
Pay with my life every day you're gone
I'd die for a chance just to hold you again
I'd give anything to taste your kiss of life
Don't let a good thing die
There's no livin' without you
I've tried
But I'm not livin' without you
As long as I'm alive
I'm not livin' without you
Baby you could save me
Come back to me and then
You could help me
Through this long night
Breathe life into me again
There's no livin' without you
I've tried
But I'm not livin' without you
As long as I'm alive
I'm not livin' without you
