Saddle up and ride your poney  
sit around and you'll be lonely.  
Saddle up and make the dust fly  
sit around and you will just cry.  
The first step is the longest when the wind is blowin'  
strongest.  
Check out from Heartbreak Hotel  
saddle up your horse and ride like hell.  
Saddle up and ride your poney  
sit around and you'll be lonely.  
Saddle up and make the dust fly  
get on your high horse and ride.  
No use herding blues at Rancho Rauncho.  
Put on your sombrero and your Poncho  
Don't stay where trouble will find you.  
Go - while the getting's good  
You'll find the end of a rainbow  
Just as soon as you've understood.  
Saddle up and ride your poney  
sit around and you'll be lonely. . . .  
No use imitating the love ranger

You don't have'to act just like a stranger.  
Hard times can easily drown you.  
Go - don't let blues surround you

Good times are there for the taking

Hit the trail  
there's no mistaking.  
Saddle up and ride your poney  
sit around and you'll be lonely.  
Saddle up and make the dust fly  
get on your high horse and ride.  
Saddle up and ride your poney  
sit around and you'll be lonely. . .
