I think of nothin, nothin but you

You think of nothin but bad things to do

You got me jumpin like a dog on a chain

It's a cold calculated game

I've seen myself become a fool in your eyes

Tell me why'd it take so long

For me to realize

Chorus:

You don't treat me like you used to

Treat me like you should

Is there someone else you've been treating good

Why don't you treat me like you used to

Like you know you could

Baby won't you try to

Treat me like you used to

Poured on the kisses and you drank them like win

Drowned in affection it was almost a crime

But you work all day and you're playin all night

It's a cold calculated game

You say that havin me is all that you need

But I've heard it all before

Baby talk is cheap

Chorus:

You don't treat me like you used to

Treat me like you should

Is there someone else you've been treating good

Why don't you treat me like you used to

Like you know you could

Baby won't you try to

Treat me like you used to

You say that havin me is all that you need

But I've heard it all before

Baby talk is cheap

Chorus:

You don't treat me like you used to

Treat me like you should

Is there someone else you've been treating good

Why don't you treat me like you used to

Like you know you could

Baby won't you try to

Treat me like you used to
