# **"We Are All God's Music"**

Visit "[We Are All God's Music](#)" on MotoLyrics.com

We are all God's music  
You and I, yes we are  
We're the chosen rhyme and rhythm of the brightest  
star

The greatest songs ever written  
He wrote straight from the heart  
So tell me why would you change a perfect work of art?

Be a peaceful child of God  
Be good and sing along  
But let him play your song for you

We are all a part of creation that was planned so  
skillfully  
Here in a cosmic orchestra we play so lovingly

He knew love was right when he made it  
Yes, from his sustaining hands  
The greatest song which he called love will forever  
stand
