[Rev. Mike "The Faith" Simmons:]

Will you bare your soul to me? I can take you higher
Use my fantasy, the whole world's a make believe

Love keeps burning inside of him
He can't fail his Mission, we can't lose him again

[Tommy "The Touch" Wolf:]

You may not believe in me, what I've got is true
I disregard your will

[Jennifer "The Devotion" Michaels:]

Heed the still small voice there within your mind
Your life won't be an endless sacrifice
Yeah, bricks are falling, you can't look back
Lightning 'n' sparks flying 'round your hand

You've got the touch
Hear the warnings, the fear and the visions that come
to you
Everybody knows you're the one
There ain't no liars here, all that you've got is your
touch

[Rev. Simmons:]

Kiss the pouring rain, don't play coy with me
Feed your heart

[Jennifer:]

Heed the still small voice there within your mind
Your life can't be an endless sacrifice
Bricks are falling, you can't look back
Lightning 'n' sparks flying 'round your hand

You've got the touch
Hear all the warnings... Remember the flowers that
bloom in your name
Everybody knows you're the one
There ain't no liars here, all that you need is your touch

[Sheriff Paul "The Law" Kovacs:]

She's got me hanging somehow, don't ever try to
change things around
She's got you hanging somehow, don't try to change us
and you may stick around

[Carol "The Heart" Jordan:]
Hold me, see me... There ain't no angels around
I can't let you all be inside of me...

[Tommy:]
Hold still, feel me...
There ain't no angels around
I can't let you all be inside of me...
Hold me (Hold me...), see me (See me...)
There ain't no angels around
I can't let you all inside of me...

[Paul:]
She's got me hanging somehow... (I can't blame her,
she loves you)
She's got you hanging somehow but now's my turn to
play
Don't ever try to change us
Well, I don't give a damn if they say you're the chosen
one

[Jennifer:]
You've got the touch
Hear the warnings, the fear and the visions that come
to you
Everybody knows you're the one
There ain't no liars here, all that you need is your touch
