"You And The Rain"

I wanna know what ignites you, triggers the flame, As I
watch as your lips
Move and you start to say I hate the rain but I can't
explain oh you don't
Have to I love you both the same.

You and the rain you and the rain your one and the
same. You and the rain
You and the rain, there is no words to explain what you
mean to me, the air
I breathe, my melody, I believe your everything.

I wanna move you with the things I say, I want you to
feel what I feel when
It rains. Grey skies make you feel alone but my hand is
here right here for
You to hold.

You and the rain you and the rain your one and the
same. You and the rain
You and the rain, there is no words to explain what you
mean to me, the air
I breathe, my melody, I believe your everything.

I was ready for everything but you, I thought I was
ready for everything
Until I met you.

You and the rain you and the rain your one and the
same. You and the rain
You and the rain, there is no words to explain what you
mean to me, the air
I breathe, my melody, I believe your everything.
