Call me a fool
Cause I miss you
I don't know why
Your on my mind

Divided we fall
Together we stand
Cut me out of your photographs
Break me or shatter me
Or tell me You'll pick up the pieces

Call me a fool
Cause I miss you
Well it's not right
Your on my mind
Your off with him
I'm losing again
Alone tonight
And I don't know why

Questions asked
And answers unknown
Leave me here, in the cold
Rescue me and take me away
And tell me your here to save me

Call me a fool
Cause I miss you
Well it's not right
Your on my mind
Your off with him
I'm losing again
Alone tonight
And I don't know why

I don't know why

I'm so sick of you
All the things you do
How you make me feel
This just can't be real

I'm so sick of you
All the things you do
How you make me feel
This just can't be real

I'm so sick of you
All the things you do
How you make me feel
This just can't be real

Call me a fool
Cause I miss you
Well it's not right
Your on my mind
Your off with him
I'm losing again
Alone tonight
And I don't know why

Well I'm your fool
(Cause I miss you)
I'm your fool
Well I'm your fool
Ohohoh
Well I'm your fool
(Cause I miss you)
I'm your fool
Well I'm your fool

And I don't know why
I don't know why
