Think I'm losing a friend, began at the end  
I wish it weren't so but I've gotta know  
Did I wait too long to say I was wrong?  
I wish it weren't so but I've gotta go

And oh, they say this road  
It's a hard one, it's a dark one  
But if you promise to stay close  
We can take this, we can shake this

Woah, woah, woah, woah

I finally see what you did to me  
It just wasn't right but I don't wanna fight  
I say we move on 'cause what we had is gone  
And I think it's best that we let this rest

And oh, they say this road  
It's a hard one, it's a dark one  
But if you promise to stay close  
We can take this, we can shake this

Woah, woah, woah, woah

And oh, they say this road  
It's a hard one, it's a dark one  
But if you promise to stay close  
We can take this, we can shake this

And oh, they say this road  
It's a hard one, it's a dark one  
But if you promise to stay close  
We can take this, we can shake this

Think I'm losing a friend, began at the end  
I wish it weren't so but I've gotta go
