Oh it's been so long, since you could trust anyone now
honey.

Yes it's been longer since you could love anyone or
anybody.

This has got to be, everything you wanted us to see.
Oh love is there more than this one?

The World is ours, ours for the moment.
Yes there's scars, you know we never show them do
we.

Oh it's been a while since you've kept your eyes shut
while sleeping.
Oh it's been a while, since you've found anyone worth
keeping.
This has got to be, everything you wanted us to see.
Oh love is there more than this one.

The world is ours, ours for the moment.
Yes there's scars, you know we never show them.
The world is ours, ours for a little while.
Yes there's scars, it's easy love just show us how to
move.

The world is ours, ours for the moment.
Yes there's scars, you know we never show them.
The world is ours, ours for a little while.
Yes there's scars, it's easy love just show us how to
dance.

The world is ours, ours for the taking.
Yes there's scars, it's our hearts your breaking.
The world is ours, ours for a little while.
Yes there's scars, it's easy love just sit a while.
The world is ours, ours for the taking.
Yes there's scars, but nothing that a little love won't
heal.
