"Desert Stretched Before The Sun"

Visit "[Desert Stretched Before The Sun](#)" on MotoLyrics.com

Got my sea and I'll swim for you
Keep this ocean clear and were safely through
But it's warm in here and the lights burn clear
My time in space has gone.
One day this street will end and lead us somewhere
new
But I don't want to start again we got to see this
through
But it's warm in here and the lights burn clear
My time in space has gone
Like a desert stretched before the sun
Stretched before the sun it's you and I
My time in space has gone
My time in space has gone
