Sit back in the couch now  
Thinking of slender coastlines outside  
I saw you all standing  
With a nation of spies  
Do you like this hot weather  
Loosening clothes  
She said she's all right  
Warm in her cashmere coat  
We'll brush aside the wire  
And we'll limp down  
She's buried in concrete now  
But we're doing fine, thanks  
She's got some secret cement behind the kitchen door  
With a delicate smile, she'll be coming back for more

Crash, dig, down, find, time, find, time  
Crash, dig, down, find, time,

Always coming down  
Always coming down  
Always coming down

Sit back and check and smile  
Sit back and check and smile  
Sit back and check and smile  
Sit back and check and smile  
Sit back and check and smile  
Always  
I think I saw your head collapsing  
She's buried in concrete now  
But we're doing fine, thanks  
She's got some secret cement behind the kitchen door  
With a delicate smile, we'll be coming back for more

Crash, dig, down, find, time, find, time  
Crash, dig, down, find, time

I'm a ranger
