No warning sign that you've heard about  
No friend of mine would ever let me down  
I cant be sure I got my story straight  
So spoken for another quiet wait  
Another quiet wait  
No warning sign here no warning sign

[Chorus]

Cutthroat its who you know (similar assassins you and  
I)  
We're both on the same road  
Still fighting at every turn  
This wasn't my design

So hard to tell what I have become  
A silent film that's run too long  
No warning sign here.....

[Chorus]

This is last time x6  
No warning sign that I've heard about...
