I'm a needle in a haystack
I'm a complex soul
If you get with me baby
I'm gonna do it all

Ain't got no famous friends to talk about
Just heart and soul
Instead, believe me baby
And let me roll

I'm so tired of misdemeanours
I get onto cruise control
All I want is a chance to be here
I'm prepared to lose my soul

Ain't got no escalate to talk about
Just heart and soul
Instead, believe me baby
And let me roll

Let me roll
'Cause I'm not too proud to beg
Please let me roll
'Cause I'll be kickin' inside your head

Please - ain't got no credit cards to feature now
Just heart and soul
Instead, believe me baby
And let me roll

I'm a circle in the corner
I'm a one-man show
If you get with me baby
I'm gonna do it all

I'm your fall in winter
I'm a wanted sign
And if you don't read me baby
You might lose your mind

Ain't got no rain no car to ? baby
I'll let you know

Think ahead, believe me baby

And let me roll

Let me roll

I'm not too proud to beg

Please let me roll

'Cause I'll be kickin' inside of your head

I ain't got no credit cards to feature now

Just heart and soul

Think ahead, believe me baby

And let me roll

Don't play with time

Don't play me

Don't play the night, ah ah baby

Don't make me say it again

Get ready now

Let me roll

Let me roll

Let me roll

Let me roll

Let me roll

Let me roll

Let me roll

Let me roll

Ain't got no rain no car to ? baby

Just heart and soul

Ain't got no famous friends to talk about

Just heart and soul

Ain't got no credit cards to feature now

Just heart and soul

Instead, believe me baby

Let me roll

'Cause I'm not too proud to beg

Please let me roll

'Cause I'll be kickin' inside your head

Please, I ain't got no escalate to talk about

Just heart and soul

Think ahead, believe me baby

Let me roll
