Picture the sky, that is how high I reach
So far alive, none have been right for me
But your love is a chance I'd like to take
With each breath in me, I wake
If it brings you back to me

Because I'm free and in love
I'm the loneliest star from the sun
But I feel that I'm close to the one
Who will stop me from 'coming undone

'Cause I'm free

I have been close
I have been almost near
(Who do you really want to make it)
(Who do you want to kill)
White city light
But nothing quite like here
(Who do you really want to be right here)

An' your love
(Your love)
Is a life that binds us both
(Your love)
With each breathe in me, I hold
We won't throw it all away

Don't you know that I'm free and I'm young
I'm the loneliest star from the sun
And I feel that I'm close to the one
Who will stop me from 'coming undone

With your love
(I know that I could be the best with)
Your love
(I know that I could take the risk with)
With your love
(I could fly with your love)
With your love

With your love

(If anyone would try to mess with)
With your love
(You and I would be possessed with)
With your love
(I would try for your love)
With your love

Don't you know that I'm free and I'm young
I'm the loneliest star from the sun
But I feel that I'm close to the one
Who will stop me from 'coming undone

Because I'm free, don't you know I'm free
Because I'm free, don't you know I'm free
