Stay with me, baby
And that's all I ask of you
And I know that someday
You won't remember
The way that this moment feels to you

Don't let it go
Don't turn your back on
What you think you know
You never know you know
Don't leave it alone
'Cause I need you to cling to

'Cause you are my kind
You're all that I want
Here in this life
Until we are gone

Our breath and our skin
Our hearts and our minds
They're one and the same
You are my kind

Well, call on me baby
If you should ever need someone, yeah
To help get your head straight
I'll be your resident all night
Sure, am glad just having you around

All that I know
When you find love you never let it go
You never know you know
Without you I'm lost
I get scattered, I'm shattered

'Cause you are my kind
You're all that I want
Here in this life
Until we are gone

Our breath and our skin
Our hearts and our minds

They're one and the same
'Cause you are my kind
We're one and the same
You are my kind

Don't let it go
Don't turn your back on
What you think you know
You never know
Don't leave it alone
'Cause I need you to cling to

'Cause you are my kind
You're all that I want
Here in this life
Until we are gone

Our breath and our skin
And our hearts and our minds
They're one and the same
'Cause you are my kind

Our love and our life
My heart and my soul
I need you tonight
Your love makes me whole

And it's all I can stand
Until you come home
I need you tonight
'Cause you are my kind
I need you tonight
'Cause you are my kind

Oh, you are my kind
Oh, you are my kind
