Don't worry just let me blow,
all of your gray clouds away,
i promise i'll never leave you,
alone in the rain,

Don't worry just let me blow,
all of your gray clouds away,
i promise i'll never leave you,
alone in the rain,

Got the whole world on her shoulder,
and now she all alone, trying to make ends meet,
its a one way street, to late to turn around,
and if you ask me she should get,
the girl of the year award,
its the same damn song, all day long,
whole world trying to break her down,

Got the notes of addiction,
the rent still got fills by the millions,
all alone, trying to raise three children,
and she feeling, like she just can't take no more,

Don't worry just let me blow,
all of your gray clouds away,
i promise i'll never leave you,
alone in the rain,

Don't worry just let me blow,
all of your gray clouds away,
i promise i'll never leave you,
alone in the rain,

I puff and i puff,
and i blow them away,
i puff and i puff,
blow your clouds away,

Nobody ever thinks we're being innocent,
no its a rocky road through the rain and storm,
i leave a light on, help you find your way home,
i know your tired of the hurt and pain,

but your fire gone burn just the same,
you know what i mean, girl you a queen,

don't let the world get you down,

Got the notes of addiction,
the rent still got fills by the millions,
all alone, trying to raise three children,
and she feeling, like she just can't take no more,

Don't worry just let me blow,
all of your gray clouds away,
i promise i'll never leave you,
alone in the rain,

I puff and i puff,
and i blow them away,
i puff and i puff,
blow your clouds away,

So fuck em, use the movie conviction,
no gimmicks or tricks its non fiction,
a cold world theres a lot of love missing,
listen, trying to do something thats uplifting,

Don't worry just let me blow,
all of your gray clouds away,
i promise i'll never leave you,
alone in the rain,

Don't worry just let me blow,
all of your gray clouds away,
i promise i'll never leave you,
alone in the rain,

I puff and i puff,
and i blow them away,
i puff and i puff,
blow your clouds away,

I puff and i puff,
and i blow them away,
i puff and i puff,
blow your clouds away,
