Mommy just dry your eyes, mommy dont you cry
I know we've been through hard times and the
struggles
And I just wanna tell you I love you

[Verse 1]

Only 15 put under pressure
First month 27th day,
They took away my mother
I was left to be raised by my brother
Tought to be a hustla
Mommy gone gotta stick together
Stay strong through the stormy weather
Became a top seller, look how we stackin this cheddar
When you jump mommy life would be better
Just like Rihanna you can stand under my umbrella

[Hook]

You know how to make me better
Even when we lose our cheddar
Even through the stormy weather
You hold me down

[Chorus]

Mommy just dry your eyes, mommy dont you cry
I know we've been through hard times and the
struggles
And I just wanna tell you I love you
[x2]

[Verse 2]

17 got a little money
Feelin kinda blue
Cause it's lookin you doin 10 to 20
Ridin bein broke aint funny
It's all bein hungry
But ima keep hustlin for my mommy
Until I get rich like puffy
Never had a blamby
You said I can be all I can be
Some day lma buy you miami
So when I win my Grammy

You commin cause I do this for my family

[Hook]

You know how to make me better
Even when we lose our cheddar
Even through the stormy weather
You hold me down

[Chorus]

Mommy just dry your eyes, mommy dont you cry
I know we've been through hard times and the
struggles
And I just wanna tell you I love you
[x2]

[Bridge]

17 now my mommys gone
Cant wait till she come back home
Missin her face like dust till dawn, while she went away
Never think it be this long
I feel like cryin while I'm writin this song
Cant wait till that day come on
When she leave the place

[Speaking]

Hey whats up mom, how you doin?
Its been about 2 years since I saw your face
I miss you like crazy
Know the money orders the pre paid costs
Bein on my own
No Knee Kurt Canino
But I love you though
This for you

[Hook]

You know how to make me better
Even when we lose our cheddar
Even through the stormy weather
You hold me down

[Chorus]

Mommy just dry your eyes, mommy dont you cry
I know we've been through hard times and the
struggles
And I just wanna tell you I love you
[x2]
