Girl i understand where you're feelin
cause with you i cry out for no reason
wonderin what who i m with or if i m cheatin
dont worry cause im not leavin
forever girl givin you the world
them other girls cant compare to you
you keep me up when i m feelin down
that's y i dedicate this song to you

girl you are my heart for real
cant no other girl ever be that
you should know just how i feel
shouldnt be too hard for you to see that
cant nobody take you place
aint no one there to make what we have come undone
so no matter what they say
no need to worry girl cause youre my
number 1 1 1
youre my number 1 1 1
youre my number 1 1 baby

youre my number 1 and thats forever
cause when i m down girl you make me feel better
another girl come cheatin i wont let her
so no matter i m not gonna leave never
forever girl givin you the world
them other girls cant compare to you
you keep me up when i m feelin down
that's y i dedicate this song to you

girl you are my heart for real
cant no other girl ever be that
you should know just how i feel
shouldnt be too hard for you to see that
cant nobody take you place
aint no one there to make what we have come undone
so no matter what they say
no need to worry girl cause youre my
number 1 1 1
youre my number 1 1 1
youre my number 1 1 baby

girl when i say that youre my number 1
that means that youre my only one
and there could never be another one
to take the place of you
forever girl givin you the world
them other girls cant compare to you
you keep me up when i m feelin down
that's y i dedicate this song to you

girl you are my heart for real
cant no other girl ever be that
you should know just how i feel
shouldnt be too hard for you to see that
cant nobody take you place
aint no one there to make what we have come undone
so no matter what they say
no need to worry girl cause youre my
number 1 1 1
youre my number 1 1 1
youre my number 1 1 baby
