"Welcome To Tomorrow"

Everythin' I have done up to this point has been for
today

And now this is tomorrow

We all tryin' to make it to tomorrow

'Cause we don't know what tomorrow holds

So I'mma get to you across the world

Don't worry 'cause it's only a day away

So all my people struggling', making something out of
nothin'

Just relax and pray 'cause it's only one day away

Tomorrow

I'm finally comin' home tomorrow

I just gotta get through today

But hey, what's one more day to wait?
