Just Like Gravity
(David Crosby)

[Intro. (Acoustic Guitar)]

Just like gravity
It's just like gravity
Pulls me
It pulls so hard
It pulls so right
It pulls so hard
Pulls so tight
And it's just like gravity
Just like gravity
Pulls me
If the moon was a woman
And the sun a star
How can she pull so hard
From so far?
It's just like gravity
Just like gravity
Pulls me
You were out of sight
Beyond the realm of possibility
'til we went faster than light
Sliding past her at night
Like crystalline nobility
Just like gravity
Just like gravity
Pulls me
Just like the dinosaurs
Trapped in tar
We are held in place
By a distant star
And it's just like gravity
Just like gravity
Pulls me

[Instrumental Ending (Acoustic Guitar)]
