I see people walking underneath the streetlights  
Making their way home  
Another night another town another show  
Another round until the bar is closed  
Clock on the wall says it's close to last call,  
Where the hell am I supposed to go  
I'm so far down  
So far down

Bartender could you call me up a cab  
And point me to downtown  
Somewhere that I can find an open sign buzzing  
And a bottle where I can drown  
Give me a table in the corner  
Cause she'd be disappointed  
If my mama could see me now  
I'm so far down  
So far down

I can't remember when it happened  
When all the colors turned to grey  
But I remember being happy  
It seems so far away

Tell me a story about how you lost it all  
And how you ended up in this place  
I see the same look every damn morning  
While I'm staring back at my face  
Shut my eyes just to wake up and find  
That I'm still on the fall from grace  
And it's so far down  
So far down

Chorus
