Girl... I'm all on you (girl)
Anytime... I'm all on you
Anyplace... I'm all on you (girl)

Whatever you want boy, you know what I got
I'm giving' you all of me
Don't be afraid boy, take me away
I'll give you a guarantee
You won't regret anything that you get
I can be all you need
It's gettin so hot boy, you hittin' my spot
I want you all on me

So if you like it, come and get close you're invited
I know that you cannot hide it
You know that I want you all on me
And if we're grindin'
We won't be done till sunshinin'
Tonight you gonna be mine, and
You know that I want you all on me

Say gal you a request the strength outta me back yow
Everything me got yow
True me style so versatile me give it to them a lot yow
Like the stars up inna the sky, so me give to dem inna
me flock yow
Every woman a mine, a so me think from me a tot yow
Wether them white or wether them black yow
Wether dem slim or wether dem phat yow
Sean a Paul we deh ya we a sting and we a shock yow
We have dem under lock down
Born fi give dem a pat down
Bring it over here if your girl back round

Cause I'm searchin' just to find a toppa top girl, and

you're lookin' fine
I love that shape and that design
Gimme your body anytime

And I know you hear me clear
Girl you gotta know, I got no fear
And you know I will be prepared
If you give me your body anywhere

In the heat of the night now, our bodies entwine
You're all that I can feel
I'm losing my breath everytime that you get
A little closer to me
You touchin' me right and I'm holdin' you tight
You're like a midnight dream
Ready or not now, I'll give what I've got
If you give it all to me

So if you like it, come and get close you're invited
I know that you cannot hide it
You know that I want you all on me
(All on you, girl)
And if we're grindin'
We won't be done till sunshinin'
Tonight you gonna be mine, and
You know that I want you all on me
(Yo Yo, Yo Yo)

Well out of the mist of the midst of the dance girl follow
we leadin'
Cause we no ramp fi give them what them be needin'
With them believin' we give them good seedin'
From mornin' right back down to evenin'
Wether the time or season, wether it warm or freezin'
Girls, say them waan the lovin' increasin'
Girls dem we breedin' girls dem we pleasin'
Girls, inna di after party proceedings

I'm searchin' just to find a toppa top girl, and you're
lookin' fine
I love that shape and that design
Gimme your body anytime

And I know you hear me clear
Girl you gotta know, I got no fear
And you know I will be prepared
If you give me your body anywhere

So if you like it, come and get close you're invited
I know that you cannot hide it
You know that I want you all on me

And if we're grindin'
We won't be done till sunshinin'
Tonight you gonna be mine, and
You know that I want you all on me
(D-D-Dirty eh)

C'mon now lets go
Where nobody knows
You and me alone
You and me together
Wanna feel it in my soul
Baby take control
Love when you oh
Make it last forever
(repeat)

So if you like it, come and get close you're invited
I know that you cannot hide it
You know that I want you all on me
And if we're grindin'
We won't be done till sunshinin'
Tonight you gonna be mine, and
You know that I want you all on me
