We take this challenge as one  
but we will get stronger and happy forever  
And I will find a way to keep this relationship  
stronger.....stronger! But whatever happens they  
cannot pull us apart were strong forever !!!

chorus:

It will be forever and ever so don't let go.. Just be happy  
while we can see each other!!! I'm coming after you  
and we will be together forever!!!! forever!!!!

na..na..na..na..
