Are you with me, baby
I wannna know, I wanna know
My girl

Try to tell you that I love you, babygirl
But it's all in vain
(In vain, in vain)
Try to tell you that I be there for you
When you call my name
(My name, my name)

If every little thing I try to do
It gon' cause you pain
(Pain, pain)
Then I might as well leave you girl
And don't come back again

'Cause you know I can't pretend
I tell you that I give you love straight to the end
Bad mind a cut we off
Them nah want we carispen'
(Correspond)
They don't understand it, from my heart

Babygirl, you know this from de start
Well, any which part you walk
You got me caught, you a di top
My pepperpot

Babygirl, I put you at the top
Well, any which part you walk
You got me caught, you a di top
