There's no getting out
It's going a bit too far right now
She don't feel his claws start sinking in till it's too late
First she fought back then she thought that this won't
be so bad
She got dirty She got dirty
And now she can't go back

Caught in his grand illusion
She's been hypnotized

There is a danger in love
An angel could fall for a devil
There is a danger in love this way
'Cause love will turn into pain
There is a danger in love
An angel could fall for a devil
Yeah, there is a danger in love this way
'Cause love will turn into pain, yeah, yeah

By the light of day
She wonders: "What did I go and do?
I'm not really like this and I won't do it again"
Now he's coming, she starts running but she don't get
far
She's addicted she's addicted
She needs him like a drug

Caught in his grand illusion
She's been hypnotized

There is a danger in love
An angel could fall for a devil
There is a danger in love this way
'Cause love will turn into pain
There is a danger in love
An angel could fall for a devil
Yeah, there is a danger in love this way
'Cause love will turn into pain, yeah, yeah
