You hold me tight you never
Let me go
You were there
Dominating my world
Jealous of my friends
Unfair

You told me that the reason I'm alive
Was to serve you
Make you happy
Was to sacrifice

Every little kiss you gave me
Brought nothing but heartache
Every little smile you flashed babe
Brought nothing but heartache

You said that we're all born to
Do a task
You were mad
'Cause I wanted more than
What we had
It's so sad

That you weren't human after all
You never saw
My tears at all
You never compromised

Every little kiss you gave me
Brought nothing but heartache
Every little smile you flashed babe
Brought nothing but heartache

Every little touch that came my way
Every single time you made me stay
Brought nothing but heartache

There's nothing more that you can say
There's nothing left to do
There's nothing more that you can say
There's nothing here for you

Every other word you used to say
Brought nothing but heartache
Every game of love we used to play
Brought nothing but heartache

Every little kiss you gave me
Brought nothing but heartache
Every little smile you flashed babe
Brought nothing but heartache
